In-Store Banking Advantages for the Retailer...

- There is **no cost to you** for FSI to market your available store to financial institutions. Once a partnership is developed, FSI handles the entire process from start to finish.
- In today's highly competitive supermarket business, **an in-store bank or credit union is an added convenience for shoppers.** They can do their financial business at a place they typically already visit two to three times a week.
- In-store banking customers are likely to have a **higher level of loyalty to your store.**
- The financial institution leases the space from you, making the branch an **additional income stream for the store.**
- **An in-store bank or credit union increases store security.** If you choose to use the branch's services, cash can be moved out of the store at any time of day. You will not have to wait for an armored car to make a pickup.
- FSI's ongoing support of the financial institution enhances the success of the in-store branch, **providing continuous rental income and keeping shoppers happy.**
- Modular construction allows for a **quick, clean installation** which eliminates dust and noise that disrupts normal business.
